### EDUCATION

**Gujarat Technological University**

2020-2024

B.E. Computer Engineering

### SKILLS

- Python
- Django
- JavaScript
- Node.js
- Backend (Python+JavaScript)
- Frontend (React.js)
- PostgreSQL
- MySQL
- MongoDB
- AWS S3
- AWS EC2
- Docker
- Nginx
- GitHub
- DevOps
- Problem Solving
- HTML
- CSS
- SCSS
- Machine Learning
- Scikit Learn
- Matplotlib
- RestAPI
- ReactNative
- WebScraping

### WORK EXPERIENCE

BACKEND DEVELOPER

**BookmyGame**

August 2022 - May 2023

- Work with **django-rest-framework** to build RestAPI.
- Configure **django-logging** for logging. and **cron jobs** using **django-rq and redis**.
- Used **Cloudinary** for image storage purpose.
- Collaborated with cross-functional teams to design and implement CI/CD pipelines, resulting in **automated deployments using jenkins** and increased deployment frequency.
- Monitored and optimized backend infrastructure, utilizing tools such as **Nginx and Docker**, resulting in improved system reliability and reduced response times.
- Customized admin page in **django-admin** and implemented featured like **export to excel, html, csv** etc., Used **proxy models** to create dummy sections with admin
- Configured in house solution for **route navigation** as an alternative to google map API to reduce cost and response time.
- Build python module for **online transactions** like order create, payment confirmation , auto refund etc. for **CashFree** and **RazorPay**.
